

Oleodinamica 2MP ES06103814H CETOP 3 subplate with pressure relief

Manufacturer: Oleodinamica 2MP
Manufacturer part number / published order designation: ES06103814H
Published model: ES06103814H

About this compilation

Prepared by Hydmaster from selected manufacturer documentation. Original technical pages follow without cropped drawings, rewritten data or altered units. This cover and index are Hydmaster editorial material, not a manufacturer-issued exact-execution datasheet.

Coverage: selected pages relevant to the identified size and configuration. Other options or neighbouring models retained on an original page apply only where explicitly identified.

Execution notes and conditions

Manufacturer-authored 2013 catalogue via Hydra-Comp. Actual selected ES06103814H reconciled to E_06-10-38 option fields S/1/4/H; full assembled code is not individually printed. Adjustment range 100-350 bar is not an assembly pressure rating or preset.

Source-page index

Source page numbers below are physical pages of each complete original PDF. The original printed page labels and technical content remain unchanged. Compiled page numbers count this cover/index.

Source A: Exact legacy E_06-10-38 family and selected observed option fields.
