Danfoss OMT 250 151B2047 orbital hydraulic motor

Manufacturer: Danfoss

Manufacturer part number / published order designation: 151B2047

Published model: 151B2047

About this compilation

Prepared by Hydmaster from selected manufacturer documentation. Original technical pages follow without cropped drawings, rewritten data or altered units. This cover and index are Hydmaster editorial material, not a manufacturer-issued exact-execution datasheet.

Coverage: selected pages relevant to the identified size and configuration. Other options or neighbouring models retained on an original page apply only where explicitly identified.

Execution notes and conditions

Exact factory article and drawing binding verified against current manufacturer records.

Dimensional reference only. Geometric displacement and pressure/torque/flow ratings are not inferred from the nominal size or neighbouring executions.

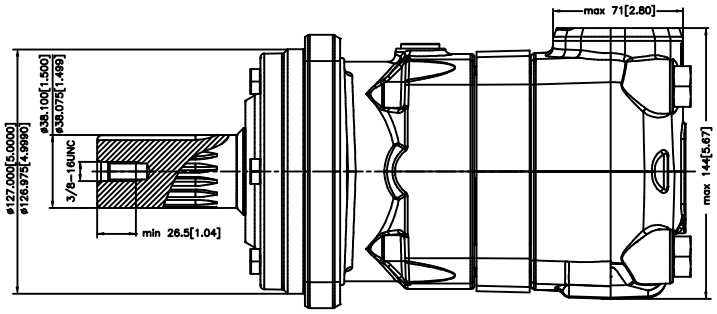

The photograph is manufacturer-supplied and representative. The exact drawing defines this execution.

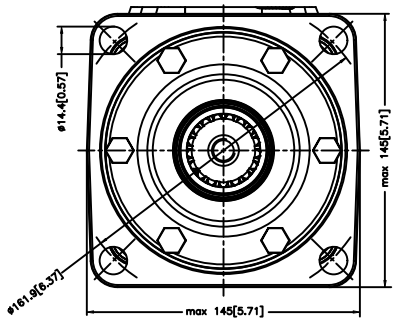

Source-page index

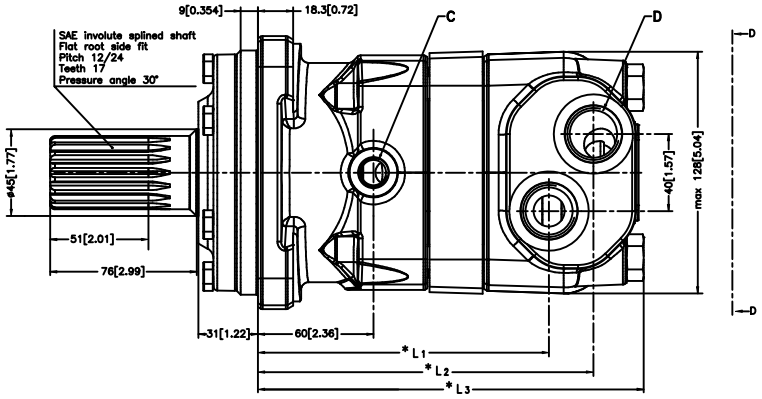

Source page numbers below are physical pages of each complete original PDF. The original printed page labels and technical content remain unchanged. Compiled page numbers count this cover/index.
