

Sandblast hose - impulsion 12 bar MI030112042

Documentation publisher / supplier: DICSA

Manufacturer part number / published order designation: MI030112042

Published model: MI030112042

About this compilation

Prepared by Hydmaster from selected manufacturer documentation. Original technical pages follow without cropped drawings, rewritten data or altered units. This cover and index are Hydmaster editorial material, not a manufacturer-issued exact-execution datasheet.

Coverage: selected pages relevant to the identified size and configuration. Other options or neighbouring models retained on an original page apply only where explicitly identified.

Execution notes and conditions

The excerpt preserves the currently linked technical catalogue edition; differently coded newer product-card variants are not treated as equivalent.

Rows and illustrations for other sizes retained on the same original page are not assigned to this article.

Source-page index

Source page numbers below are physical pages of each complete original PDF. The original printed page labels and technical content remain unchanged. Compiled page numbers count this cover/index.

Source A: DICSA Hydraulic Hoses - Technical Catalogue

Original pages	Compiled pages	Relevant content
142	2	Exact MI030112042 row with the family construction, application, composition, size and stated pressure/temperature/geometry conditions.

Chorro de arena - impulsión 12 bar

Sandblast hose- delivery 12 bar
Tuyau sablage- refoulement 12 bar

-35°C → +80°C

3,15 : 1
