

Hydrocarbons hose 10 bar aspiration MI040310076

Documentation publisher / supplier: DICSA

Manufacturer part number / published order designation: MI040310076

Published model: MI040310076

About this compilation

Prepared by Hydmaster from selected manufacturer documentation. Original technical pages follow without cropped drawings, rewritten data or altered units. This cover and index are Hydmaster editorial material, not a manufacturer-issued exact-execution datasheet.

Coverage: selected pages relevant to the identified size and configuration. Other options or neighbouring models retained on an original page apply only where explicitly identified.

Execution notes and conditions

The excerpt preserves the currently linked technical catalogue edition; differently coded newer product-card variants are not treated as equivalent.

Rows and illustrations for other sizes retained on the same original page are not assigned to this article.

Source-page index

Source page numbers below are physical pages of each complete original PDF. The original printed page labels and technical content remain unchanged. Compiled page numbers count this cover/index.

Source A: DICSA Hydraulic Hoses - Technical Catalogue

Original pages	Compiled pages	Relevant content
134	2	Exact MI040310076 row with the family construction, application, composition, size and stated pressure/temperature/geometry conditions.

Hidrocarburos 10 bar aspiración

Hydrocarbons 10 bar suction
Hydrocarbures 10 bar aspiration
