

Naldoni e Biondi NBCF11320 female-threaded cylinder clevis end

Manufacturer: Naldoni e Biondi
Manufacturer part number / published order designation: NBCF11320
Published model: NBCF11320

About this compilation

Prepared by Hydmaster from selected manufacturer documentation. Original technical pages follow without cropped drawings, rewritten data or altered units. This cover and index are Hydmaster editorial material, not a manufacturer-issued exact-execution datasheet.

Coverage: selected pages relevant to the identified size and configuration. Other options or neighbouring models retained on an original page apply only where explicitly identified.

Execution notes and conditions

Exact article NBCF11320 is printed literally in the manufacturer table and selected supplier manufacturer field. All selected stock-row technical cells match; no code alias inferred.

Supplier brand is blank (--); no independently authenticated supplied unit. Manufacturer S355 production-material designation is not an independent material certificate.

Exact row is on request subject to minimum batch. No ISO15552 conformity, pressure/load, pin inclusion or mating compatibility is established.

Representative genuine threaded-clevis family photograph, not exact variant certification.

Source-page index

Source page numbers below are physical pages of each complete original PDF. The original printed page labels and technical content remain unchanged. Compiled page numbers count this cover/index.

Source A: Naldoni e Biondi threaded hydraulic-cylinder clevis reference

Original pages	Compiled pages	Relevant content
134	2	Complete original NBCF exact row, internal-thread and clevis drawing, material and minimum-batch notes.

► **Materiale di produzione:**

Acciaio S355

► **Production material :**

Steel S355
