

Naldoni e Biondi NBT017015070 hydraulic cylinder head

Manufacturer: Naldoni e Biondi
Manufacturer part number / published order designation: NBT017015070
Published model: NBT017015070

About this compilation

Prepared by Hydmaster from selected manufacturer documentation. Original technical pages follow without cropped drawings, rewritten data or altered units. This cover and index are Hydmaster editorial material, not a manufacturer-issued exact-execution datasheet.

Coverage: selected pages relevant to the identified size and configuration. Other options or neighbouring models retained on an original page apply only where explicitly identified.

Execution notes and conditions

Exact literal NBT017015070 manufacturer row on physical13/printed12; no generated code or alias.

Selected GAPI own product card names NALDONI and the exact Referencia; cached identity evidence, no stock or delivery claim.

Manufacturer production material: Cast iron GG 25. No independent material certificate inferred.

250 bar is the documented series-heading reference, not a maximum complete-cylinder assembly rating.

Exact row has a manufacturer minimum-batch triangle; batch quantity is unspecified.

Original OEM sectional drawing only; no supplier photograph or exact supplied seal/bushing execution is represented.

Original continuation table prints Ev in the axial column; value retained under that source label. Earlier family drawing labels E; no independent meaning of v is asserted.

Source-page index

Source page numbers below are physical pages of each complete original PDF. The original printed page labels and technical content remain unchanged. Compiled page numbers count this cover/index.

Source A: Naldoni e Biondi NBT cylinder heads - exact article reference

Original pages	Compiled pages	Relevant content
9	2	Unchanged original manufacturer drawing, material/series-pressure headings and exact model row.
13	3	Unchanged original manufacturer drawing, material/series-pressure headings and exact model row.

> 250 bar
> Materiale di produzione:

Ghisa GG 25

> Production material :

Cast iron GG 25

> Materiale di produzione *:

Alluminio

> Production material * :

Aluminium
