

Naldoni e Biondi NBTP085070040 heavy-series hydraulic cylinder head

Manufacturer: Naldoni e Biondi
Manufacturer part number / published order designation: NBTP085070040
Published model: NBTP085070040

About this compilation

Prepared by Hydmaster from selected manufacturer documentation. Original technical pages follow without cropped drawings, rewritten data or altered units. This cover and index are Hydmaster editorial material, not a manufacturer-issued exact-execution datasheet.

Coverage: selected pages relevant to the identified size and configuration. Other options or neighbouring models retained on an original page apply only where explicitly identified.

Execution notes and conditions

Exact literal NBTP085070040 manufacturer row on physical18/printed17; no generated code or alias.

Selected GAPI own product card names NALDONI and the exact Referencia; cached identity evidence, no stock or delivery claim.

Manufacturer production material: Steel. No independent material certificate inferred.

350 bar is the documented series-heading reference, not a maximum complete-cylinder assembly rating.

No minimum-batch triangle is present beside this exact selected row, checked by native glyph bbox and original pixels.

Original OEM sectional drawing only; no supplier photograph or exact supplied seal/bushing execution is represented.

Source-page index

Source page numbers below are physical pages of each complete original PDF. The original printed page labels and technical content remain unchanged. Compiled page numbers count this cover/index.

Source A: Naldoni e Biondi NBTP cylinder heads - exact article reference

Original pages	Compiled pages	Relevant content
18	2	Unchanged original manufacturer drawing, material/series-pressure headings and exact model row.

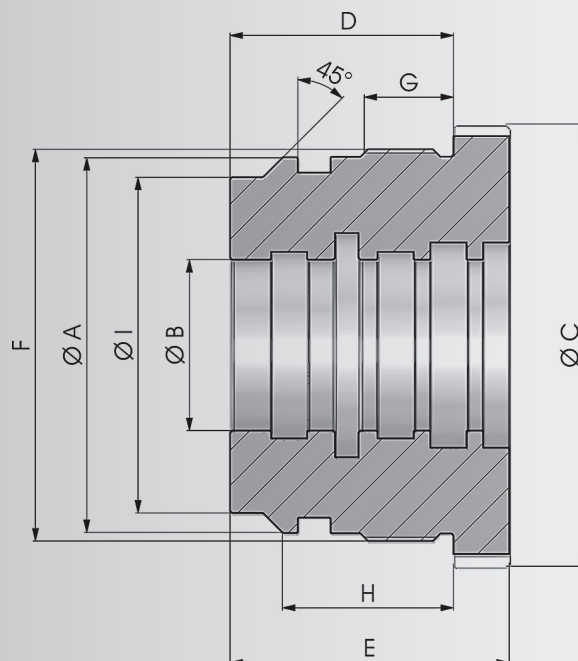

> 350 bar

> **Materiale di produzione:**

Acciaio C 45

> **Production material :**

Steel 080M46
